

Lessons Learned From Community Schools

MaryAnn Prisichenko
Signals For Success

My vision for family engagement is ambitious....

I want to have too many parents demanding excellence in their schools. I want all parents to be real partners in education with their children's teachers, from cradle to career. In this partnership, students and parents should feel connected – and teachers should feel supported. When parents demand change and better options for their children, they become the real accountability backstop for the educational system.
